Dim Sum Rush

A partnership climbing game for 2–6 players · made for tiles or cards

THE GAME

Each team shares face-up tiles the other team can't touch, so every tile you put out is a play only your partner can make. Your hand, your cart, is in a fixed order you can never rearrange; the tile you put face up on your team's trolley is how you help each other. Empty every cart on your side before the other team does.

WHY IT WORKS

- **Teamwork without bidding.** Partners coordinate through shared tiles, not calls or bets.
- **Passing is a real move.** Fill a trolley spot or swap a tile to reshape your cart.
- **Comebacks built in.** Chef's Specials let the team that's behind seize the lead.
- **Plays at every count.** Teams at 4 and 6, plus a free-for-all mode for 2–6.
