Un, Deux, Trois, Cat!

GRABBING GAME · 2–6 PLAYERS · 10 MIN

Everyone flips at once. Nobody knows the answer until the cards land.

Chant "un, deux, trois, cat!" and flip your top card together. Every card shows one of the five toys, almost always in the wrong color. Spot a toy shown in its own color and grab it from the middle of the table. If nothing is in its own color, grab the cat. Every round's puzzle is built by the whole table's flips, so it's different every time.

Un, deux, trois···

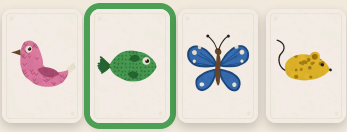

Everyone flips their top card at the same moment. Pink bird, orange ball, blue butterfly, yellow mouse: **nothing is in its own color.**

···Cat!

So everyone lunges for the felt cat. First hand on it keeps their flipped card as a point.

Next round

A **green fish** is a fish in its own color: grab the fish. Two toys in their own colors? Two players can score.
