Boo Who?

A paranoia party game for 4–8 players · Everyone can see it but you.

THE GAME

Your role card faces out, so everyone can read it except you. Players put Boo tokens on each other, then everyone decides at once: run or stay. The Living should run; the Ghosts should stay. Your only clues are the Boos in front of you.

WHY IT WORKS

- **Paranoia on the table.** No secret chats or votes. A pile of Boos might be a warning, or bait.
- **Everyone acts at once.** Boos go down on a count of three; everyone runs or stays together.
- **Scoring in one line.** Right call: 1 point per Boo. Wrong call: your booers score their numbers.
- **Fits in a deck box.** Every piece is card-sized and flat, even the cardboard stands.
