Tutorial, bots and online play

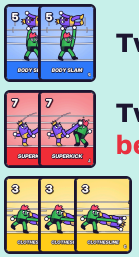

A SHEDDING GAME WHERE YOU DON'T WANT TO SHED

WHY IT STANDS OUT

- Your last card knocks you out, so you're always weighing a big play now against having nothing left later.
- Three face-down stamina cards let you survive a move you can't beat, and everyone can see who's running low.
- One 60-card deck, 2–5 players, three 5-minute rounds.

For fans of **Scout** and **Love Letter**

BEAT THE MOVE

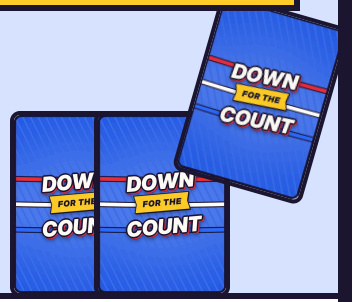

Two 5s

Two 7s beat it

Three 3s beat that

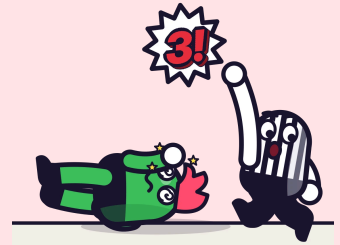

More cards beat fewer. With the same number of cards, a set beats a run, then the higher number wins.

OR SPEND STAMINA

Instead of beating the move, take a card off it or put a stamina card into your hand. You get three stamina cards a round.

PINNED

Need stamina with none left and the ref counts three. Last one standing scores the most; most points after three rounds wins.

2–5 players

15 min three 5-minute rounds

60 cards in a 5 × 4 in box

$10–15 target retail price
