SENTAI

COOPERATIVE HAND MANAGEMENT · 2–4 PLAYERS

A cooperative card game where nobody talks and nobody ever draws

WHY IT STANDS OUT

- Players build every combo together, one or two cards at a time. You can't talk about your hand, so the cards you play are the only way to show your team what you have.
- Your hand is your health. Cards you use to beat a monster are gone, a monster you miss comes back until you beat it, and if anyone runs out of cards, everyone loses.
- Two Bosses that play differently and five optional Hero powers, all in 101 cards. 2–4 players, 20–30 minutes.

For fans of **The Crew** and **Sky Team**

Face the monster

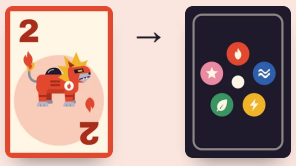

Each season's monsters line up face up. Every card prints a combo (a Run, Set, Flush or Rainbow) and its size for 2, 3 and 4 Heroes.

Build it together

Starting with the lead, each Hero adds 1 or 2 cards that fit, or passes. Nobody may say what they hold: the first card played is the signal.

Beat it or fight again

Finish the combo and those cards are spent. Fall short and they come back, everyone discards 1, and you fight it again.

2–4 players, cooperative

20–30 minutes, three seasons

101 cards in a two-piece box

$20–25 target retail price
